Kerwee Feedlot

Your path: [Home](#) | [Our Company](#) | Kerwee Feedlot

Kerwee Feedlot is located on the inner Darling Downs of south-east Queensland; an area famous for its abundant supply of high quality grain and water.

This feedlot is designed for the cattle to enjoy a clean and stress free environment whilst maintaining the viability and sustainability of the surrounding eco-system. Cattle are fed balanced diets consisting of high quality steam flaked grains and other locally produced feedstuffs.

Kerwee has a livestock capacity of 9 171 standard cattle units (1 scu = 600 kg animal). Kerwee participates in the National Feedlot Accreditation Scheme (NFAS No. 247) where the key areas of environmental management, animal welfare, feeding integrity and meat safety are addressed. Kerwee has demonstrated through rigorous quality assurance protocols and systems, that we are committed to exceeding the expectations regulatory authorities, markets, consumers and the wider community. Kerwee is a proud supporter of the Australian Lot Feeders Association and the local community.

Kerwee manages several independently audited (by Aus-Meat) production systems to provide customers with alternative solutions.

- ▶ Livestock Production Assurance (LPA)
- ▶ Meat Standards Australia (MSA)
- ▶ European Unit (EU)
- ▶ Certified Australian Angus Bee (CAAB)
- ▶ Natural Beef Programme
- ▶ Australian Certified Organic (ACO)
- ▶ Biological Farmers Association (BFA)

Kerwee feedlot has gained recognition from the Australian Beef Industry as a leading business in its field, receiving a number of awards for excellence in management and operation.

- ▶ 1997 Australian Feedlot of the Year (3 050 – 10 000 scu)
- ▶ 1998 Australian Feedlot of the Year (3 000 – 10 000 scu)
- ▶ 2003 Feedlot of the Year (greater than 3000 head category) Environmental Responsibility Award
- ▶ 2008 Sydney RNA Gold Medal (beef)
- ▶ 2008 Brisbane RNA Gold Medal (beef)
- ▶ 2008 Australian Feedlot of the Year (3 000 – 10 000 scu)
